Built by *passionate* craftsmen Determined to **built to perfect** sailing yachts

Faurby - a belief

At Faurby we have built yachts for decades. Ever since we were founded in 1976, we have been determined to deliver beautiful yachts of the highest quality and performance.

This belief is with action built into every yacht leaving our shipyard. And this uncompromising approach to quality and aesthetic is what our customers appreciate the most.

Every Faurby is individually built, and by placing the owner in the centre, each Faurby becomes a unique masterpiece.

— BUILT TO MEET OWNERS DREAMS —

* Actual model may vary from images shown, and images may include optional equipment.
